PAPERS

9710 sqm
EXHIBITION SPACE

The International Rubber Glove Conference & Exhibition (IRGCE), held once in every two years, is a MUST VISIT event for professionals in the medical care, oral dental, food handling, laboratories, chemicals handling and many other industries.

The IRGCE has been attracting an increasing number of serious buyers, importers and trade visitors in the global Rubber Glove Industry to its three days event ever since its inaugural event in the year 2002.

With the increasing awareness on human health and workplace safety, rubber gloves continue to grow its importance in our daily lives and the IRGCE has poised itself as the focal point for everything and anything related to rubber gloves.

ORGANISER

The Malaysian Rubber Glove Manufacturers Association (MARGMA) is the trade association which represents rubber glove manufacturers and their supporting industries in Malaysia.

Supporting industries such as packaging manufacturers, chemicals & raw materials suppliers, natural rubber latex & nitrile latex producers and distributors, industrial and production line fabricators as well as other relevant suppliers always make a strong presence in every IRGCE.

EXHIBITION

More than 500 exhibition booths are available for companies to exhibit and promote their latest products, innovations and technologies during every three-day long exhibition in the IRGCE.

The exhibition in the IRGCE attracts exhibitors from more than 15 countries including the top five foreign countries, namely China, Thailand, India, Japan and England making up the majority of the exhibitors with a general increase amongst other countries as well.

ATTENDEES

The IRGCE is opened to all industry related players around the world – the manufacturers, importers/buyers, materials suppliers, traders/distributors, researchers, financiers, investors and users of rubber gloves and disposable medical devices. IRGCE is now a MUST ATTEND event for serious and quality trade visitors and conference participants over three exciting days.

GLOBAL SOURCING MISSION

The Malaysian Rubber Council (MRC) collaborates with MARGMA to organize Global Sourcing Mission (GSM). The MRC's GSM is a business matching programme that facilitates new business and networking opportunities by connecting international buyers, importers and distributors looking to source for Quality rubber products from Malaysian manufacturers.
